公司介绍

Company Profile

Shanghai techway industrial co.,ltd is located in the international metropolis Shanghai and was established in 2008. Its business scope includes car beauty, repair, and cleaning tools. Such as orbital car sanders, polishers, waxing machines, polishing pads, wool discs, pullers, welding guns, car jacks, cordless polishers, foam pads and other related products.

We have many long-term cooperative customers from the United States, Russia, Brazil, Ukraine, Indonesia, Philippines, Nigeria... Better tools, better life is our trade belief, reflected in our reception desk. Our purpose is to create a better life and a better place for you, for me, and for all mankind.

As an automotive detailing supplier, we have very strict procedures to control the quality and production of each product. Our engineers and QC have been working in our factory for more than 10 years. They have extensive experience with the product. Raw materials are selected from more than 10-20 potential suppliers. Qualified suppliers must be approved by documents, licenses, physical workplace inspections and approved suppliers. Ensure consistency in order retention for customers.

企业文化

Corporate Culture

Responsible

Responsibility is one of our core values. We are built on integrity and commitment and consistently deliver on our promises to our customers, employees and partners. We understand the importance of responsibility and integrate it into our work and decision-making

Integrity

Our company's culture is based on sincerity and integrity. We believe that sincere communication and honest behavior are the keys to building good relationships. We treat every employee, customer and partner with respect and care, and always maintain a transparent and open attitude. Establish long-term partnerships based on credit.

Professional

Our company's success stems from our commitment to our customers. We use our professional knowledge and experience to provide customers with customized solutions. We deeply understand our customers' business needs, work closely with them, and provide high-quality products and services.

业务架构

Organizational Structure

TOP sales

The sales department is committed to providing customers with excellent products and services. We have a sales team full of passion and expertise, who deeply understand customer needs and provide customized solutions.

Market purchasing

The market purchasing department is responsible for finding and purchasing high-quality raw materials and products. We establish cooperative relationships with reliable suppliers and constantly seek new cooperation opportunities.

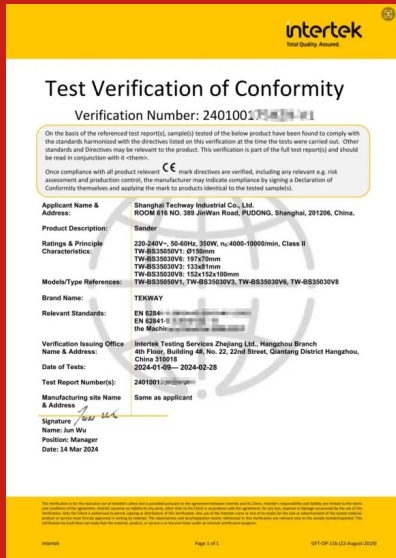

Quality Inspection

With a high-quality quality control team, they strictly control every production link to ensure that the products meet the highest quality standards. Adopt advanced testing equipment and technology to conduct comprehensive quality inspection and testing.

汽车美容系列

New TEKWAY® Sander is designed for sanding windows, doors and frames and performing correction work on wood filler.

Low profile and large size ideal for sanding with TEKWAY® Sander to treat large areas.

The compact TEKWAY® Sander is ideal for body filler and primer sanding applications.

The TEKWAY® Brushless Sander is a great helper on the job offers fast, efficient and dust-free sanding performance.

key features

- Powerful and great performance
- The compact and low profile gives full control over the work
- The sanding machine can start and stop synchronously with the vacuum cleaner
- The ergonomic design makes it comfortable to use for long periods

➔ CAR VACUUM CLEANER

TW-VC18K30L Square vacuum cleaner

The vacuum cleaner is for wet and dry use with a blower function; the machine has two independent dust collection chambers, which are divided into an upper dust bucket and a lower dust bin (the upper dust bucket mainly requires coarse-grained dust or garbage), and the lower dust bucket can be filled with water. Filter the air again before it is discharged. The machine has a button to mechanically shake dust, and a manual button is required to trigger the cleaning of the filter element.

Rated power:	1600W	Tank Material:	PP
Rated voltage:	230V/50Hz	Hose DIA:	32mm
Vacuum:	>18Kpa	Plug:	VDE plug
Noise:	<78db	G.W:	18.1KG
Capacity:	30L	Power Cord length:	5M

Vacuum cleaner

Rated power:	1600W	Tank Material:	PP
Rated voltage:	220-240V/ 50/60Hz	Hose DIA:	32mm
Vacuum:	>20Kpa	Plug:	VDE plug
Noise:	<82db	G.W:	16.5KG
Capacity:	40L	Power Cord length:	5M

model: TSW-VC26K50L

1. professional dry vacuum cleaner with automatic filter shacking for solving the ultrafine dust working with power tools together
2. M class filtration system
3. with big rear wheels and big front wheels make it more stable in moving
4. with standard electrical socket for automatic synchronization function/ and optional puenmatic/ battery tools automatic synchronization working
5. professional 2 fans copper motor with longer life
6. big folding HEPA to protect the motor
7. wet /dry/blower function
8. indication automatic cut off power when water is full
9. hose collection on vacuum
10. optional tool box brackets

TSW-VC26K50L

Gas flow: 4500L/min

Vacuum degree: 2600pa

Filter area: 18133cm²

Power: 2300W

Filtration efficiency: 99%

Maximum volume: 50L

Wire length: 5m

TSW-VC20K38L

● High-end series

Maximum load: 2400w

Maximum suction power: 3900L/min

Power consumption: 800 W \pm 10%

Rated voltage: 230V/50Hz

Noise: <78db

Capacity: 38/36L

Tank Material: PP

Hose DIA: 32mm

Weight: 15kg

Plug: VDE plug

Power Cord length: 8m

● Application areas

Square vacuum cleaner

Working power supply: 220V/50Hz

Equipment power: 1200w

Maximum dust collection flow: 3900L/min

Maximum vacuum degree: >2400Pa

Filter area: 6800cm²

Working noise: <78dB

TW-VC24K42L

Small, powerful and extremely convenient: the TW-VC24K42L is designed for business users on the move and working with clients. The particularly compact design facilitates transport and loading of work equipment. The wet and dry vacuum cleaner is equipped with a semi-automatic filter cleaning system and meets EU "L" dust user protection standards. Professionals are freed from annoying dust at work.

TW-VC22K40L

Accessories:

- 1600W double stage copper motor;
- Visible 5.0m 3G1.5mm² power cable with VDE plug;
- 40L plastic body
- Adjustable blowing function;
- Foldable trolley handle;
- Cable storage function;
- 2000W socket with synchronization;
- Suction adjustment;
- Automatic filter-cleaning function;
- Triple filtration system + CLASSM.

Square vacuum cleaner

Rated power: 1600W
Rated voltage: 230V/50Hz
Vacuum: >22Kpa
Air flow: <2.1m³/min
Capacity: 40L
Tank Material: PP
Hose DIA: 32mm
Plug: VDE plug
Power Cord length: 4m

TW-VC20K30L

Accessories:

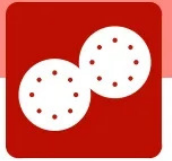

- 1pc metal floor brush + ganging buckle
- 1pc metal telescopic tube
- 2M hose
- 1pc plate filter
- 1pc dust paper bag
- 1pc small flat suction
- 1pc pagoda connector

Round vacuum cleaner

Rated power: 1600W
Rated voltage: 230V/50Hz
Vacuum: >20Kpa
Air flow: <2.1m³/min
Capacity: 30L
Tank Material: PP
Hose DIA: 32mm
Plug: VDE plug
Power Cord length: 4m

Rotary polisher

Spinner. It uses the heat generated by high-speed rotation to soften the paint surface, thereby removing scratches. However, this machine requires high operating skills and has certain risks. The working principle of the car polishing machine mainly relies on the motor to drive the polishing disc to rotate at high speed, working together with the polishing fabric, polishing liquid (polishing wax) and possible polishing agents to remove pollution, oxide layers, shallow marks and fine particles on the car paint surface. Scratches make the paint surface smooth and bright. During the polishing process, the polishing fluid can flow into the collection tray through a specific drain pipe, and the polishing cover and cover are used to prevent dust and other debris from falling on the polishing fabric when the machine is not in use, affecting the polishing effect.

Cordless

Lithium electric polishing machine

A lithium battery cordless polishing machine is a portable power tool used for polishing various surfaces such as automotive paint, metal, wood, and plastic. It utilizes a lithium-ion battery as its power source, providing convenience and mobility without the need for a power cord or external power supply. The lithium battery technology offers several advantages for cordless polishing machines.

When using a lithium battery cordless polishing machine, it's important to consider the battery capacity and runtime, as well as the charging time. Higher-capacity batteries will provide longer runtime between charges, while shorter charging times allow for quicker turnaround when the battery is depleted.

Dent Repair Kit

TW-PL300V2

78-in-1 Professional-Grade Home Dent Repair Kit:

1x Professional hand pressure grapple puller

1x Texture fill light

1x red dent lifter

1x Lithium battery glue gun

1x battery pack

1x charger

1x dent ding hammer

1x Scrape Bar

10x blue car dent repair tabs

24x red Hybrid Tab Kit

3x Orange Dent Strips

14x Black Sliders

1x Dent Removal Tool

1x canvas bag

1x towel

1x yellow plastic spatula

5x black glue sticks

5x yellow glue sticks

1x bottle of alcohol (alcohol not included)

Repair tools

TW-WG003

Product name: Lithium battery plastic welding gun

Voltage: DC 21V

Battery: 1500mA*5 cells

Power: 90W-150W

High-end plastic box packaging contains: a welding gun, a charger, a battery, a pair of scissors, a knife, 50 large wavy nails, 50 small wavy nails, 50 M-shaped nails, V-shaped nails 50 nails + 1 small trowel

TW-SWG001

voltage: 220V 50Hz

Max. power: 2000W

output current: 500-800A

peak current: 1500A

output voltage: 4.5V

welding thickness; 0.2-1.0mm

welding time: 0-3 second (adjustable)

Heat gun

■ TW-HG600T3

Name: Ten-level temperature-adjustable brushless hot air gun
Working voltage: 220/50Hz
Power consumption: 1800W
Temperature display: none
Temperature range/display: 60-600°C
Temperature adjustment method: ten-level temperature adjustment by the top knob
Air volume: 150-450 liters/minute
Switch: two-speed adjustable wind speed
Shell material: two-color injection molded TPE rubber
Plastic PP+30% fiber
Motor: Brushless motor
Heating cylinder: chromium-plated iron material
Heating core: golden mica plate insulated heating core
Power cord: "Pure copper rubber power cord 2 meters including the leakage part connected to the machine 1.8 meters 2*1.0mm²"

■ TW-HG600T3

Name: hot air gun
voltage: 230/50Hz
Power consumption: 1000/2000W
Temperature display: none
Temperature range: 60-600°C
Air volume: 300/500 liters/minute
Switch: two-speed adjustable wind speed
Shell material: black injection molded TPE
Heating cylinder: chromium-plated iron material
